

User Conference

**2026** SAN DIEGO

# Web Application Environment

SPEAKER

Lukas Fraser | VP of Product

# Safe Harbor Statement

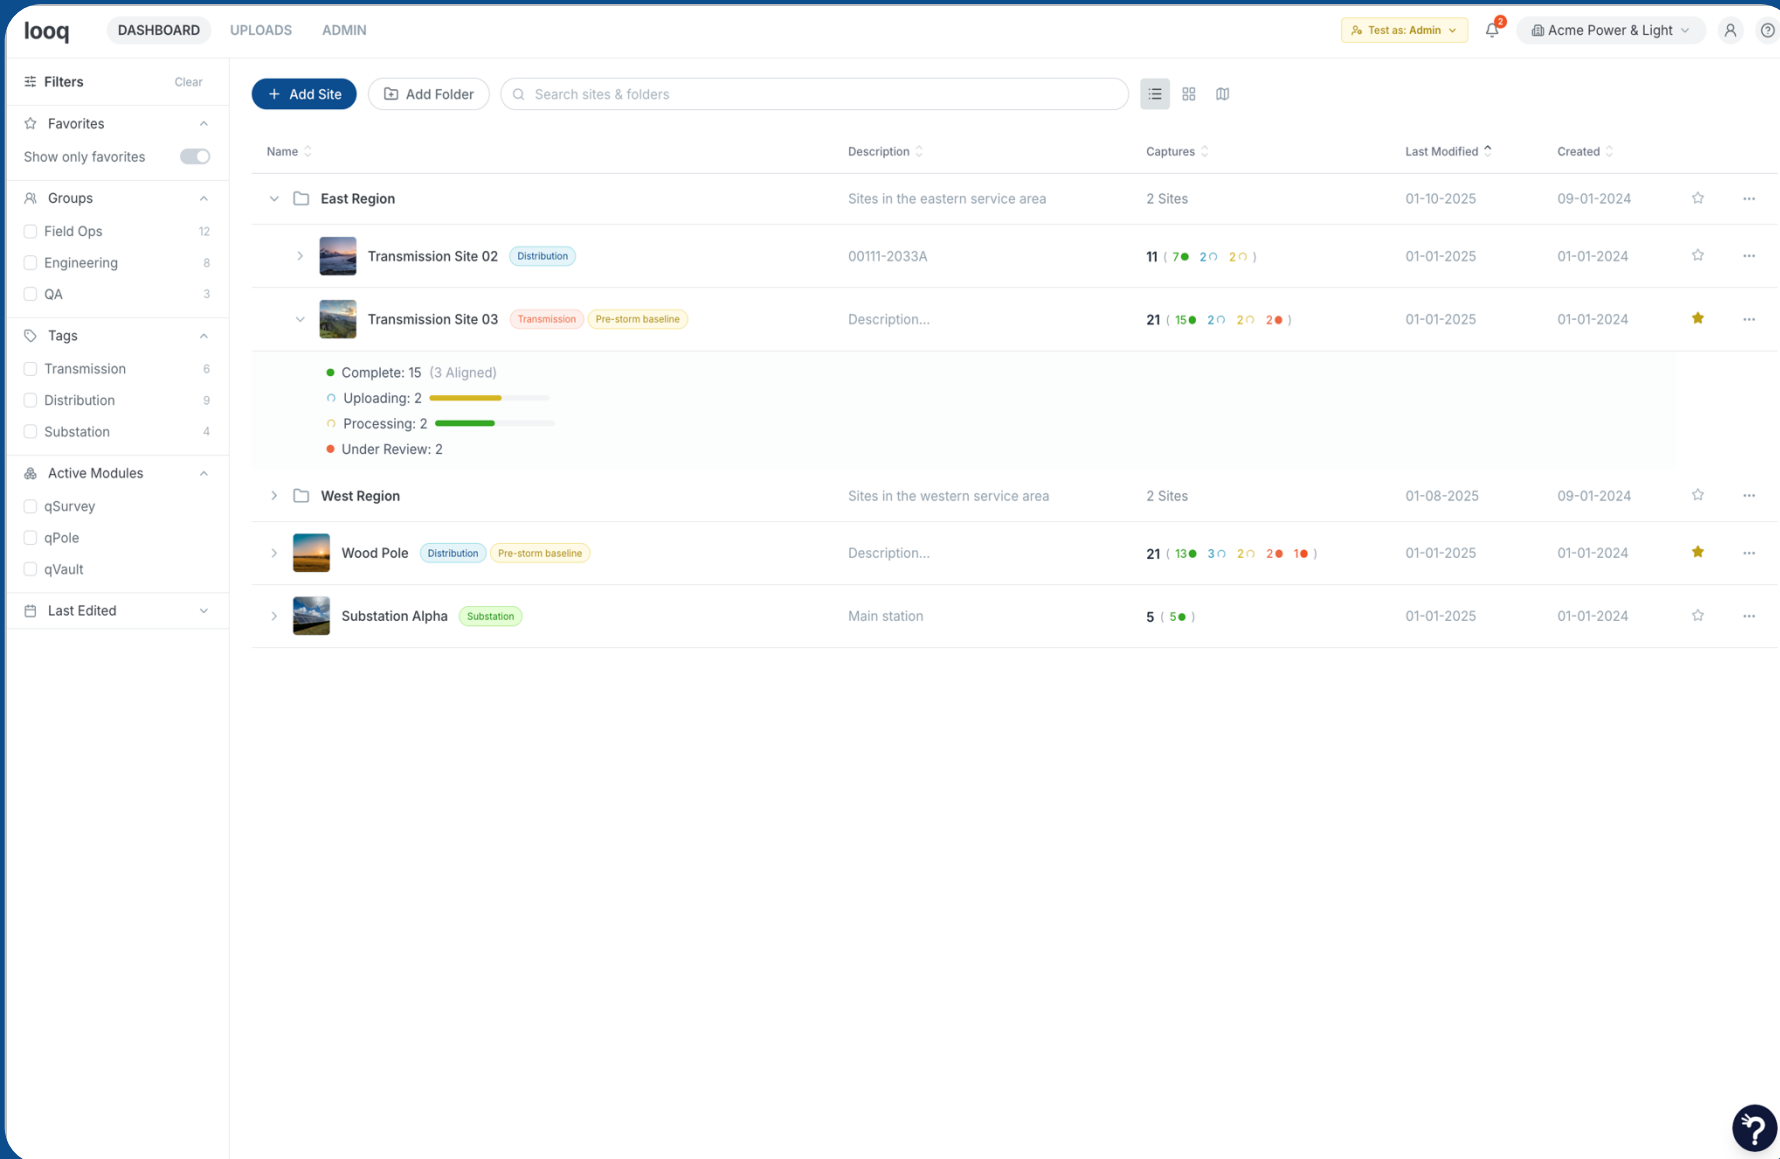

This presentation contains forward-looking statements about Looq AI's product roadmap, capabilities, and timing. Actual delivery may differ.

Specifically forward-looking: GA dates, AI accuracy and time-savings figures, Gaussian-splatting performance, integration partner names, pricing tiers, and any 2027 roadmap items.

**Don't make purchasing decisions based on un-released features.**

**01**

**qApp**

# qApp 2.0

Fresh look.

Complete redesign.

### Configure the local base

A RINEX file was uploaded with these captures. Verify the time overlap and provide base coordinates.

Use auto-base

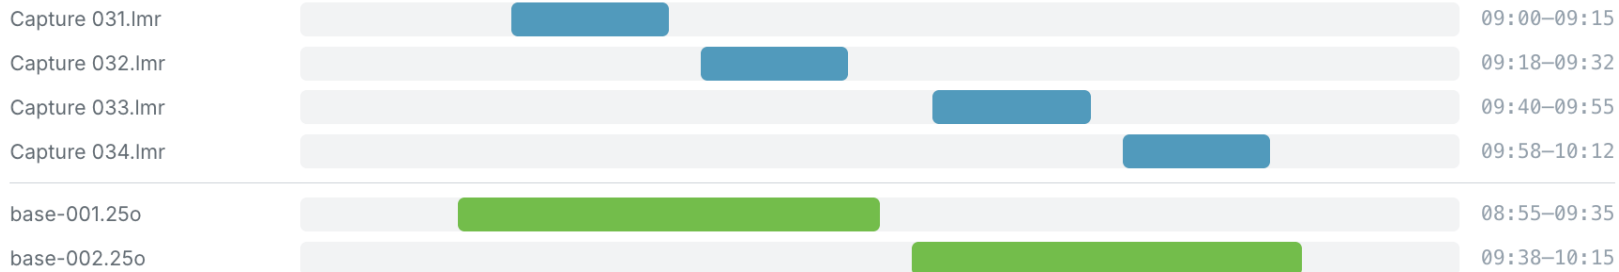

Use a local base

Pick a local base

RINEX uploaded earlier (base-001.25o, base-002.25o)

#### TIME OVERLAP — CAPTURES VS. BASES

✓ Every capture covered by a base

#### COORDINATES FOR THE UPLOADED RINEX

Coordinate system

Decimal degrees

Latitude

47.6062

Longitude

-122.3321

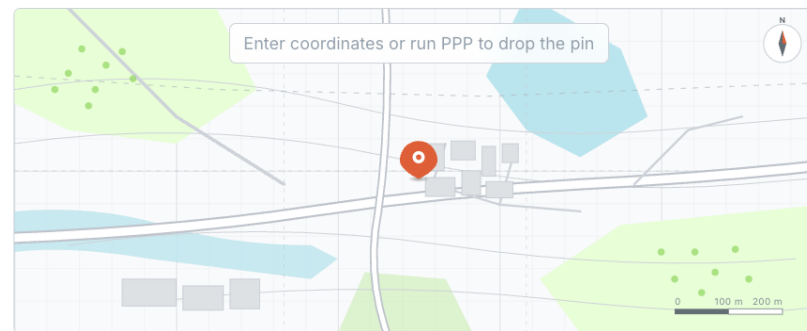

Elevation (m, optional)

56

Enter coordinates manually, or run PPP to compute them from the RINEX file.

Run PPP

### Support tickets

From the Internal Support Agent — every ticket anyone in the org has filed

Subject	Filed by	When	Tied to	Status
Why is Lukas so good looking?	Ravi Patel	2026-04-26	Wood Pole	<span>Open</span>
Can we adjust the auto-tags on Capture 014 after upload?	Maya Chen	2026-04-25	Capture 014 (Site 02)	<span>In progress</span>
Best practice for splitting Substation Alpha into per-bay captures?	Carlos Reyes	2026-04-24	Substation Alpha	<span>Waiting on customer</span>
How do I share a view-only link to Capture 005 with our regulator?	Jen Park	2026-04-23	Capture 005 (Transmission Site 03)	<span>Resolved</span>
Training session request — onboarding new operator on Transmission Site 03	Maya Chen	2026-04-22	Transmission Site 03	<span>Open</span>

Role	Description	Key Permissions
<b>Administrator</b>	Operational heavy-lifter	Manage all users, create new projects, set organization-wide defaults, and view audit logs. They can do everything except touch the credit card or delete the Account Owner.
<b>Billing Manager</b>	Finance/Procurement	View invoices and update payment methods. They generally don't need to see your project data or manage users.
<b>Manager</b>	The lead for a specific asset/site.	Add/remove project members, Create project, change project status, and delete project data.
<b>Editor</b>	The primary "doer."	Upload data, edit captures/models, and export reports. ATC Workflow. Cannot invite others.
<b>Analyst</b>	Data analyst	Cannot edit data or use ATC. Download data, qSurvey, qPole, analyze all data. Cannot invite users.
<b>Viewer</b>	Stakeholders or clients.	Read-only access. Can view captures and but cannot move or change anything or download. Cannot invite users.
<b>Operator</b>	Field Tech	Ability to only upload data
<b>Public Share Link</b>	No authentication	Easy public share or iframe embed for view only, with expiry / password

**Group-Based Permissions: Instead of inviting 20 people to 20 projects, allow admins to create "Teams" (e.g., "Northwest Region Team") and assign the whole team to a project at once.**

# New Roles
